* Please note: In the Narrowband UHF CB expansion 77 channels are available for use. CH 22 & 23 are used for telemetry and telecommand applications, voice communications are not permitted on these channels and transmission is inhibited. CH 61, 62 & 63 are guard channels and are unavailable for use.

** CH 01-08 and CH41-48 are available for duplex operation. Check with your local Retailer for information on available repeaters.

^ AVS – The Automatic Volume Stabilizer detects Narrowband and Wideband Transmissions and automatically adjusts incoming audio to comparable levels.

15km: Typical Range Line of Sight

† Operating time (in hours) based on 5% transmitting, 5% receiving and 90% waiting mode with low output power.
